Materials

- Chain
- Head pin or wire

Tools

- Wire Cutters

Step 1
Decide the length of your original section of chain by either measuring or counting the links of your chain. This piece of chain is 11 links long.

Step 2
String your cut section of chain onto a head pin or piece of wire.

Step 3
String your remaining chain onto the head pin or piece of wire.

Step 4
Line up the links and cut the chain to the same length as the original section of chain.

Step 5
Repeat step 4 for the next piece of chain.

Step 6
Continue until you have the desired number or chain sections needed for your piece.
