- Crimping pliers (TL0500)

Beading Techniques needed to complete the necklace:

- Crimping
- Simple Loop
- Opening and Closing a Jump Ring

*For step-by-step photos and instructions on these and other techniques, visit FusionBeads.com and select *Beading Techniques* from the top navigation bar.*

Instructions to complete "Temptress" necklace:

Step 1

Place one 6mm Crystal Copper Swarovski crystal round bead onto a head pin, making one unit. Using round nose pliers, turn a simple loop (see Simple Loop Technique) at the end of the head pin, and attach the loop to an inner piece of scroll work in the center of the natural brass filigree wreath. Close the simple loop.

Step 2

Using chain nose pliers, open one natural brass jump ring (see Opening and Closing a Jump Ring Technique). Place the jump ring onto the outer piece of scroll work directly opposite the inner one used in Step 1. Close the jump ring.

Step 3

Place one crimp bead and the loop on one side of the natural brass woodland toggle set onto the 2-foot length of beading wire. Pass the wire back through the crimp bead, crimp the crimp bead (see Crimping Technique), and trim excess wire with wire cutters.

Step 4

String these beads in the following sequence onto the beading wire:

** 1 - 4mm Crystal Copper crystal round bead

3 - 6mm carnelian round beads

1 - 4mm Crystal Copper crystal

2 - carnelian rounds

Repeat from the ** five times, omitting the second 4mm Crystal Copper round bead and the two carnelian round beads from the last repeat.

Step 5

Place the jump ring attached to the brass filigree onto the beading wire.

Step 6

Repeat from the ** in Step 4 six times, omitting the second 4mm Crystal Copper round bead and the two carnelian round beads from the last repeat.

Step 7

Place one crimp bead and the loop on the other side of the toggle clasp onto the beading wire. Pass the wire back through the crimp bead, crimp the crimp bead, and trim excess wire with wire cutters.
