Instructions to complete “Trevo” earrings:

Step 1

Using a 3-inch length of 24 gauge sterling silver wire, make a wire wrapped link with one 4mm Mint Alabaster Swarovski crystal bicone bead (see Wire Wrapped Link Technique). Connect one side of this wire wrapped link to the loop on one 23mm sterling silver ear wire, and complete the other side of the wire wrapped link without connecting it to anything.

Tip

In this design, the three sizes of sterling silver clover bead frames nest. Place the smallest one inside the middle-sized one, and the largest outside both, with all holes aligned. You will place all three onto one head pin in the next step.

Step 2

Place the following onto one 2-inch sterling silver head pin (the three bead frames should be nested, as explained above):

- 1 - 4mm Mint Alabaster Swarovski crystal bicone
- 1 - 16.1x15.9mm sterling silver clover bead frame
- 1 - 21.8x21.5mm sterling silver clover bead frame
- 1 - 25.4x26mm sterling silver clover bead frame
- 1 - 4mm Mint Alabaster Swarovski crystal bicone

Wire wrap (see Wire Wrapping Technique) the head pin to the open loop of the wire wrapped link from Step 1.

Step 3

Repeat Steps 1 and 2 for the second earring.
