

# Ocean Front by FusionBeads.com

Approximate finished length: 3.5 inches

## **Beads and other products needed for one pair of earrings:**

- 8 - 3mm White Swarovski Crystal Pearls (PL6100)
- 8 - 5mm White Swarovski Crystal Pearls (PL6300)
- 6 - 6mm White Swarovski Crystal Pearls (PL5300)
- 2 - 8mm White Swarovski Crystal Pearls (PL5500)
- 2 - 10mm White Swarovski Crystal Pearls (PL5700)
- 10 inches - 1.3mm Gold-Filled Open Cable Chain (CN1111)
- 2 - 5mm Gold-Filled Jump Rings (GF2707)
- 24 - 26 Gauge Gold-Filled 1.5 Inch Head Pins (GF2754)
- 6 inches - 24 Gauge Gold-Filled Half Hard Wire (GW0106)

## **Tools needed to complete the earrings:**

- Wire cutters
- Chain nose pliers
- Round nose pliers

## **Beading Techniques needed to complete the earrings:**

- Wire Wrapping
- Wire Wrapped Link
- Opening and Closing a Jump Ring
- Cutting Chain Efficiently

*For step-by-step photos and instructions on these and other techniques, visit [FusionBeads.com](http://FusionBeads.com) and select Beading Techniques from the top navigation bar.*

## **Instructions to complete "Ocean Front" earrings:**

### **Step 1**

Using wire cutters, cut the gold-filled open cable chain into the following lengths (see Cutting Chain Efficiently Technique):

- 4 - ¾-inch lengths
- 2 - 3½-inch lengths

### **Step 2**

Using chain nose pliers, open one 5mm gold-filled jump ring (see Opening and Closing a Jump Ring Technique). Place the loop on one gold-filled ear wire and one end of two ¾-inch lengths of cut wire onto the jump ring, and close the jump ring.

### **Step 3**

Using a 3-inch length of wire, make a wire wrapped link (see Wire Wrapped Link Technique) with one 10mm White Swarovski crystal pearl. Connect one side of this wire wrapped link to the other end of one ¾-inch length of chain attached in Step 2 **and** one end of one 3½-inch length of chain, and connect the other side to the other end of the second ¾-inch length of chain attached in Step 2 **and** the other end of the 3½-inch length of chain.

### **Step 4**

Place one 3mm White pearl onto a head pin, creating one unit. Wire wrap (see Wire Wrapping Technique) this unit to the first link on either side of the 3½-inch length of chain.

### **Step 5**

Place one 3mm White pearl onto a head pin. Moving down the same side of the 3½-inch length of chain, wire wrap this unit to the fourth link of chain.

### **Step 6**

In the same fashion, continue to wire wrap the following units to the 3½-inch length of chain, moving down the chain in the same direction. Place the beads onto the head pins and wire wrap the units to the specified chain links in the sequence listed below:

Seventh chain link:

- 1 - 3mm White pearl unit

10th chain link:

- 1 - 3mm White pearl unit

13th chain link:

- 1 - 5mm White pearl unit

16th chain link:

- 1 - 5mm White pearl unit

19th chain link:

- 1 - 5mm White pearl unit

22nd chain link:

- 1 - 5mm White pearl unit

25th chain link:

- 1 - 6mm White pearl unit

28th chain link:

- 1 - 6mm White pearl unit

31st chain link:

- 1 - 6mm White pearl unit

34th chain link:  
1 - 8mm White pearl unit

**Step 7**

Repeat Steps 2 - 6 for the second earring.
