## **Instructions to complete “Leaf Divine” necklace:**

### **Step 1**

Prepare an oxidizing solution such as Liver of Sulfur. Place the charms, chain, wire, jump rings and clasp into the solution until they reach the desired level of oxidization (see Antiquing Silver Technique). Remove the oxidized pieces and rinse; if you wish, you may use a Pro Polish Pad to remove any excess oxidization.

### **Step 2**

Cut the chain into two 6.5-inch lengths and two 0.75-inch lengths (see Cutting Chain Efficiently Technique).

### **Step 3**

Using a 4-inch length of oxidized wire, make a wire wrapped link (see Wire Wrapped Link Technique) with these beads in the following sequence, connecting one side of the link to one end of a 6.5-inch length of chain, and connecting the other side of the link to one end of a 0.75-inch length of chain:

- 1 - glass rondelle
- 1 - 14.75x9.28mm Thai Hill Tribe tiny leaf charm
- 1 - glass rondelle
- 1 - 26.8x10.5mm Thai Hill Tribe curved leaf charm
- 1 - glass rondelle
- 1 - 14.75x9.28mm Thai Hill Tribe tiny leaf charm
- 1 - glass rondelle

### **Step 4**

Repeat Step 3, connecting the link to the remaining two lengths of chain.

### **Step 5**

Using the remaining 4-inch length of wire, make a wire wrapped link with the same beads in the same sequence as in Step 3, connecting each side of the link to the open ends of the 0.75-inch chain lengths used in the previous steps.

### **Step 6**

Using chain nose pliers, open two jump rings (see Opening and Closing a Jump Ring Technique). Use each jump ring to connect each open end chain link to each side of the clasp. Close both jump rings.
