Floral image

Tools needed to complete the necklace:

ICE Resin
13-40mm Assorted Jewels Resin Mold (CR0238)
E6000 Adhesive (TL1681)

Beading Techniques needed to complete the necklace:

Using ICE Resin with a Mold
Gluing on a Bail

For step-by-step photos and instructions on these and other techniques, visit FusionBeads.com and select Beading Techniques from the top navigation bar.

Instructions to complete “Day Lily” necklace:

Step 1

Mix the two parts of the resin (see Using ICE Resin with a Mold Technique). When mixed thoroughly, fill the pendant mold about halfway with resin. Allow the resin to soft cure. Place a floral image onto the soft-cured resin layer.

Step 2

Mix a small amount of resin, and pour a thin layer over the floral image. Allow the resin to soft cure.

Step 3

Mix a small amount of resin with pigment. Fill the mold with colored resin. Allow it to set completely. Remove the pendant from the mold, and file the edges smooth.

Step 4

Using a small drop of E6000 adhesive, adhere the glue-on bail to the back of the pendant (see Gluing on a Bail Technique). Allow it to dry completely.

Step 5

Slide the chain through the bail.
