## **Beading Techniques needed to complete the necklace:**

Woven Beaded Bead

*For step-by-step photos and instructions on these and other techniques, visit [FusionBeads.com](http://FusionBeads.com) and select Beading Techniques from the top navigation bar.*

## **Instructions to complete "Fright Night" necklace:**

### **Step 1**

Using a 5-foot length of beading thread, make a woven beaded bead (see Woven Beaded Bead Technique) using five milky dark peridot fire polished glass beads as the first color and 25 neon orange fire polished glass beads as the second color.

### **Step 2**

Reinforce the beaded bead as shown in Step 41 and 42 of the Technique, but do not cut the thread. Exit from one milky dark peridot fire polished bead, and string the following:

2 – seed beads

1 – milky dark peridot fire polished bead

14 – seed beads (bail)

### **Step 3**

Pass the needle back through the fire polished bead strung in Step 2. String two seed beads, and pass the needle through the next two milky dark peridot fire polished beads in the ring. String two more seed beads, and pass the needle back up through the same fire polished bead strung in Step 2 and back up through the 14 seed beads, which form the bail, to reinforce it. Continue passing the needle through the ring of milky dark peridot fire polished beads twice to reinforce. Trim the thread.

### **Step 4**

String the chain through the seed bead bail.
