Instructions to complete “Christmas Night” wine markers:

Step 1

Design computer-generated images that will fit inside a 1 inch square using a decorative font or any other motif on red and green backgrounds. Print the images. You can also use decorative paper.

Step 2

Apply white glue the initials or other parts of the images that you want to highlight. Sprinkle glitter onto the glue, tap off the excess, and allow glue to dry.

Step 3

Laminate the decorative paper or computer generated images with ICE Resin (see Using ICE Resin with Paper Technique). Allow the resin to cure completely.

Step 4

Using the scissors, cut out four squares from the paper.

Step 5

Using the hole punch, punch a hole in each square in the center of one side near the edge.

Step 6

Open one jump ring (see Wine Markers Technique). Place one paper charm onto the jump ring, and close the jump ring.

Step 7

Repeat Step 6 with each of the other paper charms.
