Opening and Closing a Jump Ring  
Gluing Flat Back Rhinestones

*For step-by-step photos and instructions on these and other techniques, visit [FusionBeads.com](http://FusionBeads.com) and select Beading Techniques from the top navigation bar.*

## **Instructions to complete “Frost Bitten” necklace:**

### **Step 1**

Apply a thin layer of Gem-Tac Permanent Adhesive to the back of the filigree, and adhere the filigree to the tag pendant’s raised center. Apply a dot of adhesive to the back of the SS34 Cobalt flat back rhinestone, and adhere it to the center of the filigree. Allow both to dry.

### **Step 2**

Apply a small dot of adhesive to the pendant between two “petals” of the filigree. Using a Jewel Setter or tweezers, place one SS5 Sapphire flat back rhinestone onto the glue, and allow it to dry (see Gluing Flat Back Rhinestones Technique).

### **Step 3**

Repeat Step 2 with the nine remaining SS5 Sapphire flat back rhinestones.

### **Step 4**

In the same manner as in the previous steps, adhere 20 SS5 Air Blue Opal flat back rhinestones to the tag pendant’s outer recessed circle.

### **Step 5**

Open one 5mm jump ring (see Opening and Closing a Jump Ring Technique). Use the jump ring to attach the pendant to the middle link of the chain. Close the jump ring.

### **Step 6**

Open one 5mm jump ring, and use it to attach the lobster claw clasp to one end link of the chain. Close the jump ring.

### **Step 7**

Open the 6mm jump ring, and attach it to the other end link of the chain. Close the jump ring.
