Twisting Wire – Branch Effect Technique

For step-by-step photos and instructions on these and other techniques, visit FusionBeads.com and select Beading Techniques from the top navigation bar.

Instructions to complete “Lucky Day” bobby pin:

Step 1

Anchor about 10 inches of wire to the bobby pin (see Twisted Wire - Branch Effect Technique). String one heart bead onto the wire, pointed end toward the bobby pin. Leave about 2mm of space between the bead and bobby pin.

Step 2

Twist the wire over the back of the bead and down to the bobby pin.

Step 3

In the same manner as in previous steps, attach and twist each of the remaining beads onto the bobby pin into a four-leaf clover shape.

Step 4

Anchor the end of the wire, and trim excess wire with wire cutters.
