Wire cutters

Beading Techniques needed to complete the earrings:

Opening and Closing a Jump Ring
Wire Wrapping

For step-by-step photos and instructions on these and other techniques, visit FusionBeads.com and select Beading Techniques from the top navigation bar.

Instructions to complete "Clover and Gold" earrings:

Step 1
Open one 7mm jump ring (see Opening and Closing a Jump Ring Technique), and attach it to one clover leaf bead. Close the jump ring.

Step 2
Open one 4.5mm jump ring, and use it to attach the jump ring used in Step 1 to the loop on one ear wire. Close the jump ring.

Tip
In the following steps, crystal bicone beads are wire wrapped to a jump ring randomly. Divide the crystal beads into two sets – two beads of each color per set – and use each set for one earring.

Step 3
Place any one 4mm crystal bicone bead onto a head pin, making one unit. Wire wrap (see Wire Wrapping Technique) this unit to the 4.5mm jump ring from Step 2.

Step 4
Repeat Step 3 five times, wire wrapping five more bicone beads to the same jump ring, three beads on each side of the 7mm jump ring.

Step 5
Repeat Steps 1 – 4 for the second earring.
