Instructions to complete “Magma Flow” earrings:

Step 1

Cut the chain into the following lengths (see Cutting Chain Efficiently Technique):

8 – 6-link lengths

2 – 17-link lengths

Set aside half the number of each length for the second earring.

Step 2

Place one hole of one crystal double hole square bead onto one head pin. Turn a simple loop (see Simple Loop Technique) at the open end of the head pin. Attach the loop just made to one end link of one short length of chain.

Step 3

Open the eye on one eye pin, and attach it to the other end link of the chain length from Step 2. Close the eye.

Step 4

Place one hole of a second crystal double hole square bead onto the eye pin from Step 3. Turn a simple loop at the open end of the eye pin. Attach the loop just made to one end link of a second short length of chain.

Step 5

In the same manner as in Steps 3 – 4, attach a third crystal double hole square bead to the chain from Step 4 with a simple loop link.

Step 6

Open the unattached loop on the link from Step 5, and attach it to one end link of one long length of chain. Close the loop.

Step 7

Repeat Steps 2 – 6, connecting the second set of holes in the three crystal double hole square beads with chain and simple loop links. In Step 6, connect the last link to the other end link of the same long length of chain.

Step 8

Open the loop on one ear wire (see Attaching an Ear Wire Technique), and attach it to the ninth (middle) chain link in the longer length of chain. Close the loop.

Step 9

Repeat Steps 2 – 8 for the second earring.
