- Scissors
- Mighty Crimping Pliers (TL0502)

Beading Techniques needed to complete the bracelet:

- Crimping

For step-by-step photos and instructions on these and other techniques, visit FusionBeads.com and select Beading Techniques from the top navigation bar.

Instructions to complete “On the Rocks” bracelet:

Step 1

Place one crimp bead and the loop on the lobster claw clasp onto the hemp twine cord. Pass the cord back through the crimp bead, and crimp the crimp bead with Mighty Crimping Pliers (see Crimping Technique). Trim excess cord with scissors.

Step 2

Thread the cord through one hole of one Space Cut sew-one stone from the back of the stone to the front. Slide the threaded hole to about 2 inches from the crimp bead, and tie an overhand knot in the cord. Thread the free end of the cord back through the same hole from front to back. The knot will hold the stone in place.

Step 3

Thread the cord across the back and through the second hole in the same sew-one stone from back to front. Pull the cord taut, and tie an overhand knot in the cord. Thread the free end of the cord back through the same hole from front to back.

Step 4

In the same manner as in Steps 2 – 3, anchor two more sew-on stones with knots, spacing the stones about 0.5-inch apart.

Step 5

About 2 inches from the last stone, string one crimp bead and the jump ring onto the cord. Pass the cord back through the crimp bead, and crimp the crimp bead. Trim excess cord with scissors.
