- Wire cutters

Beading Techniques needed to complete the earrings:

- Wire Wrapped Link
- Wire Wrapping

For step-by-step photos and instructions on these and other techniques, visit FusionBeads.com and select Beading Techniques from the top navigation bar.

Instructions to complete “Chime” earrings:

Step 1

Place these beads in the following sequence onto one head pin, making one unit:

1 – heishi spacer bead

1 – olive disc bead (cupped side toward the previous bead)

1 – heishi spacer bead

Step 2

Make a wire wrapped loop (see *Wire Wrapping Technique*) at the end of the head pin without connecting it to anything.

Step 3

Using a 3-inch length of wire, make a wire wrapped link (see *Wire Wrapped Link Technique*) with one heishi spacer, one light mustard disc bead and one heishi spacer (the disc bead will cup in the same direction on the earring as the unit from the previous steps). Attach one side of this wire wrapped link to the loop made on the unit in the previous step, and complete the other side of this link without connecting it to anything.

Step 4

In the same manner as in Step 3, make a wire wrapped link with one heishi spacer, one calamine blue disc bead and one heishi spacer. Attach one side of this wire wrapped link to the unattached loop made on the unit in the previous step, and attach the other side of the link to the loop on one ear wire.

Step 5

Repeat Steps 1 – 4 for the second earring.
