Instructions to complete “Berry Lovely” bracelet:

Step 1

Using wire cutters, cut six 6-inch lengths of beading wire. Cut two 3-inch lengths of bronze wire.

Step 2

Make a wire wrapped loop (see Wire Wrapped Link Technique) on one end of one 3-inch length of wire.

Step 3

Repeat Step 2 with the second 3-inch length of wire.

Step 4

Place one crimp bead and the loop on one wire wrapped link onto one length of beading wire. Pass the beading wire back through the crimp bead, and crimp the crimp bead (see Crimping Technique), making the loop about 0.25 inch in diameter. Trim excess wire with wire cutters.

Step 5

Repeat Step 4 with the five remaining lengths of beading wire, crimping them to the same loop.

Step 6

Strand 1: String these beads in the following sequence onto one length of beading wire:

2 – 6mm plum glass pearl round beads

*1 – 8mm plum glass pearl round bead

1 – 6mm plum glass pearl round bead

Repeat the sequence from * six times, adding one more 6mm plum glass pearl round bead to the last repeat. Place one crimp bead and the loop on the second wire wrapped link onto the beading wire. Pass the beading wire back through the crimp bead, making the loop about 0.25 inch in diameter, and crimp the crimp bead. Trim excess wire with wire cutters.

Step 7

Strand 2: String these beads in the following sequence onto a second length of beading wire:

1 – 4mm Indian Pink bicone bead

1 – 4mm Indian Pink round bead

1 – 6mm Indian Pink bicone bead

Repeat the sequence eight times, omitting the last 6mm Indian Pink bicone bead from the last repeat. Place one crimp bead and the loop on the second wire wrapped link onto the beading wire. Pass the beading wire back through the crimp bead, making the loop about 0.25 inch in diameter, and crimp the crimp bead. Trim excess wire with wire cutters.

Step 8

Strand 3: String these beads in the following sequence onto a third length of beading wire:

1 – 4mm Fuchsia bicone bead

1 – 4mm Fuchsia round bead

1 – 6mm Fuchsia round bead

Repeat the sequence eight times, omitting the last 6mm Fuchsia round bead from the last repeat. Place one crimp bead and the loop on the second wire wrapped link onto the beading wire. Pass the beading wire back through the crimp bead, making the loop about 0.25 inch in diameter, and crimp the crimp bead. Trim excess wire with wire cutters.

Step 9

Strands 4, 5 and 6: String 4.5 inches of the seed bead mix onto each strand. After stringing each strand, place one crimp bead and the loop on the second wire wrapped link onto the beading wire. Pass the beading wire back through the crimp bead, making the loop about 0.25 inch in diameter, and crimp the crimp bead. Trim excess wire with wire cutters.

Step 10

Place one cone onto the open side of one wire wrapped link, pushing the cone down to conceal the crimped ends of beading wires (see Multi-Strand Piece with Cones Technique).

Step 11

Wire wrap the open side of the wire wrapped link to the loop on the bar side of the toggle clasp.

Step 12

Repeat Step 10 on the other side of the bracelet.

Step 13

Wire wrap the open side of the wire wrapped link to the quatrefoil link.

Step 14

Open one jump ring (see Opening and Closing a Jump Ring Technique). Use the jump ring to attach the key charm to the quatrefoil link.

Step 15

Open one jump ring, and attach it to the quatrefoil link. Close the jump ring.

Step 16

Place one 8mm Indian Pink crystal round bead onto one head pin, making one unit. Turn a simple loop (see Simple Loop Technique) at the open end of the head pin.

Step 17

Repeat Step 16 with each of the remaining beads (except the seed beads).

Step 18

Open one jump ring. String the jump ring attached in Step 15 and the bead units made in Steps 16 – 17 randomly onto the jump ring. Close the jump ring.

Step 19

Open one jump ring, and use it to attach the jump ring from Step 18 to the loop on the second side of the toggle clasp. Close the jump ring.
