

Moments in Time by FusionBeads.com

Approximate finished length: 23 inches

Beads and other products needed for one necklace:

- 2 - 4mm Black Diamond Swarovski Crystal Bicone Beads (04BI1139)
- 2 - 4mm Crystal Bronze Shade Swarovski Crystal Bicone Beads (04BI1465)
- 2 - 4mm Crystal Silver Night Swarovski Crystal Bicone Beads (04BI1458)
- 2 - 4mm Jet Swarovski Crystal Bicone Beads (04BI1140)
- 2 - 4mm Crystal Metallic Light Gold 2X Swarovski Bicone Beads (04BI1448)
- 2 - 6mm Black Diamond Swarovski Crystal Bicone Beads (06BI1139)
- 2 - 6mm Crystal Bronze Shade Swarovski Crystal Bicone Beads (06BI1412)
- 2 - 6mm Crystal Silver Night Swarovski Crystal Bicone Beads (06BI1404)
- 3 - 6mm Jet Swarovski Crystal Bicone Beads (06BI1141)
- 3 - 6mm Crystal Metallic Light Gold 2X Swarovski Bicone Beads (06BI1394)
- 1 - 37mm Crystal Silver Shade Swarovski Crystal Helix Pendant (SC741)
- 12 inches - 3mm Gunmetal Plated Base Metal Flat Oval Cable Chain (CN4119)
- 1 - 16x12mm Gunmetal Plated Pewter Toggle Clasp by TierraCast® (MP2013)
- 10 - 24 gauge Sterling Silver 1.5 inch Head Pins (SS4003)
- 8 feet - 24 Gauge Sterling Silver Dead Soft Wire (SW0124)
- Liver of Sulfur Gel, 2 oz. bottle (TL2469)
- Pro Polish Pads (TL0617)

Tools needed to complete the necklace:

- Round nose pliers
- Chain nose pliers
- Wire cutters

Beading Techniques needed to complete the necklace:

- Cutting Chain Efficiently
- Wire Wrapped Link
- Wire Wrapping
- Messy Wire Wrapped Bail
- Using Liver of Sulfur to Oxidize Sterling Silver

For step-by-step photos and instructions on these and other techniques, visit FusionBeads.com and select Beading Techniques from the top navigation bar.

Instructions to complete “Moments in Time” necklace:

Step 1

Cut the chain into 11 1-inch (9 links) lengths (see Cutting Chain Efficiently Technique).

Step 2

Using a 3-inch length of wire, make a wire wrapped link (see Wire Wrapped Link Technique) with one 6mm Jet crystal bicone bead. Connect one side of this wire wrapped link to the loop on one side of the toggle clasp, and connect the other side of this link to one end link of one 1-inch length of chain.

Step 2

Using a 3-inch length of wire, make a wire wrapped link with one 6mm Metallic Light Gold 2x crystal bicone bead. Connect one side of this wire wrapped link to the unattached end link of chain from Step 1, and connect the other side of the link to one end link of a second 1-inch length of chain.

Step 3

In the same manner as in the previous steps, create and connect wire wrapped links using the indicated beads to chain lengths and the clasp in the following sequence:

1 – 6mm Black Diamond bicone bead
1” length of chain
1 – 6mm Bronze Shade bicone bead
1” length of chain
1 – 6mm Silver Night bicone bead
1” length of chain
1 – 6mm Jet bicone bead
1” length of chain
1 – 6mm Metallic Light Gold 2x bicone bead
1” length of chain
1 – 6mm Black Diamond bicone bead
1” length of chain
1 – 6mm Bronze Shade bicone bead
1” length of chain
1 – 6mm Silver Night bicone bead
1” length of chain
1 – 6mm Jet bicone bead
1” length of chain
1 – 6mm Metallic Light Gold 2x bicone bead
loop on the second side of the toggle clasp

Step 4

Place one 4mm Jet crystal bicone bead onto a head pin, making one unit (see Wire Wrapping Technique).

Step 5

In the same manner as in the previous step, wire wrap the remaining 9 4mm crystal bicone beads.

Step 6

Using 5 feet of wire, make a freeform briolette bail on the Helix pendant (see Messy Wire Wrapped Bail Technique), slide five of the wire wrapped units from step 5 onto the loop, then connect the wire wrapped loop to the 1-inch length of chain at the middle of the necklace and then slide on five more wire wrapped units from step 5. Complete the bail.

Step 7

Submerge the completed necklace into liver of sulfur gel (see Using Liver of Sulfur to Oxidize Sterling Silver Technique). Then polish the silver with a Pro Polish Pad.

Step 8

Remove any excess oxidization with a Pro Polish Pad.
