## **Instructions to complete “Twist and Shout” necklace:**

### **Step 1**

Using wire cutters, cut the chain into the following lengths:

2 – 0.5” (1 link) lengths

1 – 1” (2 links) length

1 – 3” length

1 – 11.5” length

### **Step 2**

Attach one side of the S clasp to one end link of the 2-link length of chain.

### **Step 3**

Place one 10mm Marbled Black ceramic round bead onto an eye pin, making one unit. Turn a simple loop (see Simple Loop Technique) at the open end of the eye pin. Attach the loop just made to the unattached end link of the 2-link length of chain from the previous step.

### **Step 4**

Open the unattached loop on the unit from the previous step, and attach it to one single-link length of chain.

### **Step 5**

In the same manner as in the previous steps, make and connect simple loop links and chain lengths using the indicated beads in the following sequence:

1 – heishi, 1 – 16mm Indicolite crystal Cosmic bead, 1 – heishi

11.5” length of chain

1 – 12mm Fuchsia crystal Cosmic bead

1 – single-link length of chain

1 – heishi, 1 – 12mm Petrol pearl, 1 – heishi

3” length of chain

### **Tip**

*In the remaining steps, beads and pendants will be attached to the 3-inch length of chain with simple loops on head pins or jump rings. Begin counting the chain links with the end link attached to the 12mm Petrol pearl unit in Step 5 as link 1. In some cases, beads and pendants are attached to both sides of the same chain link.*

### **Step 6**

Place one 4mm Light Topaz crystal bicone bead, one Modular bead and one 4mm Light Topaz crystal bicone bead onto a head pin, making one unit. Turn a simple loop at the open end of the head pin. Attach the loop just made to link 2.

### **Step 7**

Place one 6mm Marbled Black ceramic round bead onto a head pin, making one unit. Turn a simple loop at the open end of the head pin.

### **Step 8**

Open one 8mm silver plated jump ring (see Opening and Closing a Jump Ring Technique). Use the jump ring to attach the 6mm Marbled Black ceramic round bead unit from the previous step and the 20mm Indicolite Avant-Garde pendant to the same side of link 2 as the unit attached in Step 6.
