- Hypo Tube Cement (TL1202)
- Xuron Thread and Fiber Scissors (TL3000)
- Clipboard

Beading Techniques needed to complete the bracelet:

Wrapped Cord Bracelet

Instructions to complete “Point it Out” bracelet:

Tips

The letters A – C designate the beads used in the pattern. Please refer to the materials list above for the key. The bracelet is made with a variation of the Wrapped Cord Bracelet using 2-hole beads.

Step 1

Using scissors, cut a 56-inch length of cord.

Step 2

String the button onto the cord to the middle of the cord. Tie an overhand knot just below the button. Clip the button to a clip board (see Wrapped Cord Bracelet Technique).

Step 3

Thread a needle with 5 feet of beading thread. Attach the thread to the cord.

Step 4

String 2 – A, wrap the cord, and pass back down the same two holes used previously. Wrap the cord, pass up the second hole of the first A, string 2 – B, and pass up the second hole of the second A. Wrap the cord.

Step 5

Pass back down through the four beads from the previous step in this sequence: first hole of 1 – B, second hole of 2 – A and first hole of 1 – B.

Step 6

Repeat Steps 4 – 5.

Step 7

String 2 – A, wrap the cord, and pass back down the same two holes used previously. Wrap the cord, pass up the second hole of the first A, string 2 – C, and pass up the second hole of the second A. Wrap the cord.

Step 8

Pass back down through the four beads from the previous step in this sequence: first hole of the 2 – C, second hole of the 2 – A.

Step 9

Repeat Steps 4 – 5 using only C four times.

Step 10

Repeat the entire pattern of Steps 4 – 9 five times.

Step 11

Finish off the beading thread according to the Technique.

Step 12

Trim excess thread with scissors. Apply a drop of glue on each thread knot. Allow the glue to dry.

Step 13

Tie an overhand knot after the last bead. Make one buttonhole according to the Technique. Trim excess cord.
