Beading Techniques needed to complete the earrings:

Filling in a Component
Attaching an Ear Wire

Instructions to complete “Blushing Beauty” earrings:

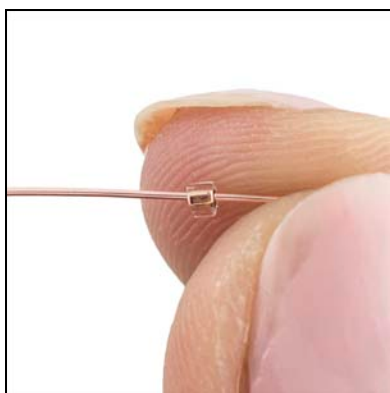

Step 1

Anchor a 5-foot length of wire by wrapping one end around one component near the point (see Filling a Component Technique).

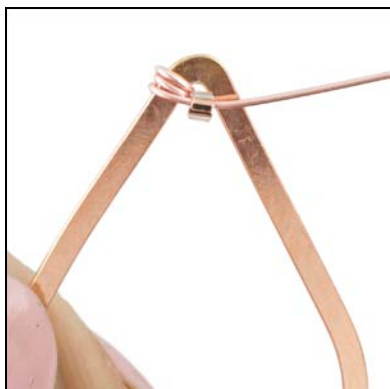

Step 2

String one Delica bead onto the wire.

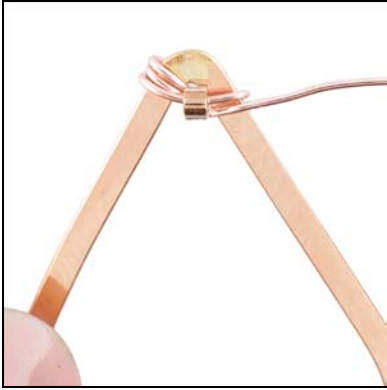

Step 3

Pull the wire across the component space with the bead inside the space.

Step 4

Wrap the wire around the other side of the component.

Step 5

Pull the wire across the back side of the component, and wrap the wire around the component.

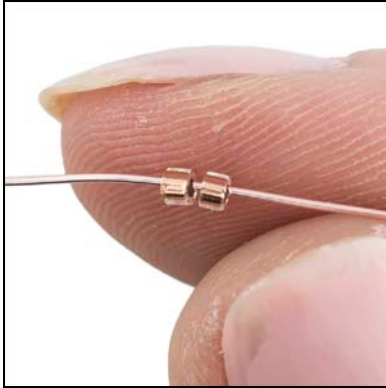

Step 6

The front of the component should now be facing you.

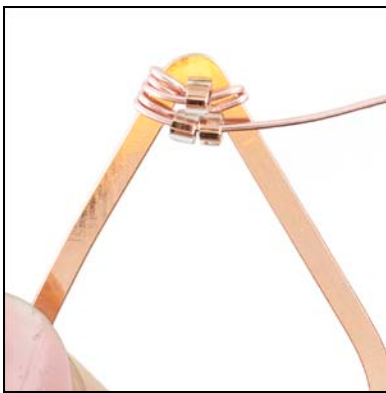

Step 7

String two Delica beads onto the wire.

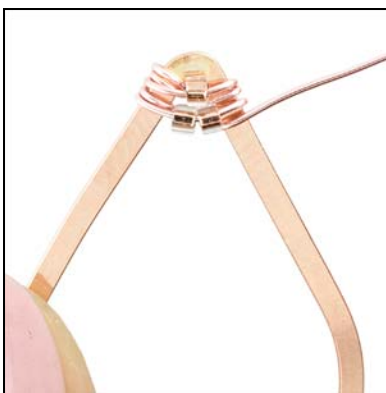

Step 8

Pull the wire across the component space with the beads inside the space.

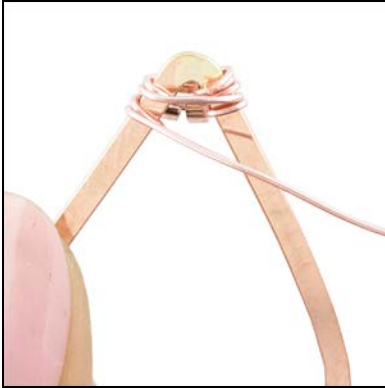

Step 9

Wrap the wire around the other side of the component.

Step 10

Pull the wire across the back side of the component, and wrap the wire around the component.

**Step 11**

The front of the component should now be facing you

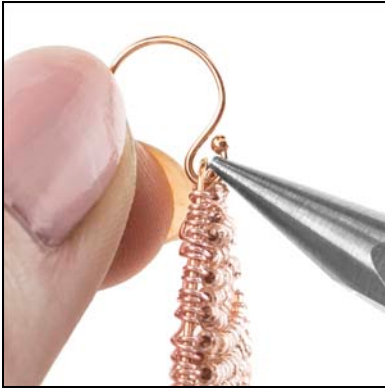

**Step 12**

In the same manner as in the previous steps, continue filling the component with beads. Increase the number of beads in each row to fill the space completely. Continue wrapping the wire several times around the curved bottom portion of the teardrop. Trim the wire.

Step 13

Open the loop on one ear wire (see Attaching an Ear Wire Technique). Attach it to the point on the component. Close the loop.

**Step 14**

Repeat Steps 1 – 13 for the second earring.
